Explanation of the Articles of the Calendar.

These pages are calculated for Toronto, Quebec, Fredericton and Halifax, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto, Quebec, Fredericton and Halifax.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec Fredericton and Halifax.

The column SUN ON MERIDIAN gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the moon's centre passes the meridian of longitude 4 h 46 m W. When in the column headed Moon's rising or setting or Moon on meridian the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for point in latitude 45° and longitude 4 h 46 m W. They are not corrected for parallax or refraction.

The column, UPPER TRANSIT OF POLE STAR shews for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4 h 46 m W. It passes in the morning from April 9 to October 9, and in the afternoon for the rest of the year. On October 9 there will be a second transit, occurring at 11h. 56m. 52s. p.m.

The time at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of its preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

From the time of the upper transit of the pole star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

MOON'S PHASES.—This Table gives the times for the four meridians when the moon passes the geocentric longitudes of 0°, 90°, 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this table are given the times at which twilight begins in the morning and ends in the evening, i. e., the times when the sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar, or added to it, according as the degrees of latitude are less or greater than 45° .

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude $43^{\circ} 20'$...1st correction = $-4' 5''$ 2nd correction $+ 2.0 \times 20 = + 40''$
 " " $47^{\circ} 40'$... " " = $+4' 32''$ " " $+ 2.5 \times 40 = + 1' 40''$
 " " $45^{\circ} 10'$... " " = $0' 0''$ " " $+ 2.2 \times 10 = + 0' 22''$

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45° .

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45° .

Eclipses.

In the year 1870 there will be four Eclipses of the Sun, and two of the Moon.

I.—A total eclipse of the Moon, January 16-17, 1870.

No eclipse will be visible at Halifax, as the Moon will set before the first contact with the Penumbra. The Moon will also set at Halifax and London and all intermediate stations before the first contact with the shadow. Hence the only phase visible will be the first contact with the Penumbra, which occurs at the local astronomical time given in the following table:—

PHASE.	Frederic'tn	Quebec.	Montreal.	Kingston.	Toronto.	London.
	h m	h m	h m.	h m.	h m.	h m.
First contact with the Penumbra, Jan. 16	19 31.3	19 11.0	19 1.4	18 49.7	18 38.3	18 30.6

II.—A partial eclipse of the Sun, January 31, 1870, invisible in Canada.

III.—A partial eclipse of the Sun, June 28, 1870, invisible in Canada.

IV.—A total eclipse of the Moon, July 12, 1870.

The total phase will end before the Moon rises in Canada. The last contact with the shadow will be seen at Halifax and Fredericton soon after the rising of the Moon; and the last contact with the Penumbra will be visible at all the stations in the following table.

The following table gives the local mean astronomical time at which the above named phases occur:

PHASE.	Halifax.	Frederic'tn.	Quebec.	Montreal.	Kingston.	Toronto.	London.
	h m.	h m.	h m.	h m.	h m.	h m.	h m.

Last contact with the Penumbra	9 8.0	8 57.9	8 37.6	8 28.0	8 16.3	8 4.9	7 57.2

V.—A partial eclipse of the Sun, July 27, 1870, invisible in Canada.

VI.—A total eclipse of the Sun, December 21-22, 1870, visible (as a partial one) in some parts of Canada.

From a point in or near Halifax, in latitude $44^{\circ} 44'$ N. and longitude $4^{\text{h}} 14^{\text{m}} 44^{\text{s}}$ W.

The Sun rises partially eclipsed.

The magnitude of the eclipse at sunrise 0.205 (Sun's diameter = 1).

Last contact occurs December 21, 19^h 55.5m. mean astronomical time at Halifax.

Angle from the North Pole at last contact 80° towards the East (for direct image).

As seen from a point in or near Fredericton, in latitude $46^{\circ} 3'$ N. and longitude $4^{\text{h}} 24^{\text{m}} 32^{\text{s}}$ W. a space of about ten seconds of arc will intervene between the limbs of the Sun and Moon at the time of sunrise.

The eclipse will be invisible at Quebec and Toronto.

EXPLANATION OF LOAN TABLES.

TABLE I. gives the instalment payable at the end of each month, quarter, half-year, or year, to repay a loan of \$1000 in the periods given in the left hand column, interest being reckoned at the half-yearly rates placed at the heads of the columns. These instalments are given exact to the nearest cent above the true value.

The equivalent rates per cent. of interest are as follows:

5 per cent. half-yearly is	10.25	yearly, or 2.46051 quarterly, or 0.81040 monthly.
5½	10.775625	2.59142
6	11.3025	2.71319
6½	11.830625	2.83482
7	12.36	2.95630
7½		3.07688

TABLE II. gives the present value of an instalment of \$1 payable as above during the periods named.

TABLE III. gives the present value of \$1 due at the end of any number of months from one to twelve.

TABLE IV. gives the amount with interest of \$1 for any number of months from one to twelve.

By aid of Table II, the present value of the instalments on a loan for any exact number of years is at once found, and, by aid of Table III, or IV. the same for a broken period of a number of years and some months, can be found—as follows. From Table II, take the present value for the named number of years and discount it for the number of months by multiplying it by the factor corresponding to that number in Table III; then add to it the present values, taken from Table III., of the several instalments payable during the broken period of months. For example, required the present value of a quarterly instalment of \$100, unexpired period being 7 years and 5 months, half-yearly rate of interest being $5\frac{1}{2}$ per cent.

From Table II, present value of instalment of \$100 for 7 years is	1943.95
Multiply this by the factor for 5 months, from Table III., 0.9563033,	
	giving 1859.12
Add the present value of the instalment due at end of 2 months.....	98.23
and the present value of the instalment due at end of 5 months	95.64
	giving 2052.99

The same may be done by aid of Table IV.—as follows. Take the present value of the instalment from Table II. for the whole number of years next greater than the broken period, and find the amount of it for the difference between the given number of months and one year, by multiplying it by the factor corresponding to that difference in Table IV. Then subtract from it the amount (with interest) of the instalments paid during that difference, as given in Table IV. Thus the above example might be worked as follows.

From Table II, present value of instalment of \$100 for 8 years is.....	2120.82
Multiply this by the factor for 7 months from Table IV. 1.064460,	
	giving 2267.51
Subtract the amount of the instalment paid 4 months before.....	103.63
and the amount of the instalment paid 1 month before.....	100.89
	204.52
	giving 2052.99

MATHEMATICAL DEPARTMENT.

We notice with pleasure a large number of solutions of the Problems in the Almanac for 1869, from correspondents in various parts of the country. The majority of the solutions received were correct, and many of them exhibit considerable talent and research. Messrs. Chute, Dunne, Fleming, Moffat, Matthews, Cameron, and Charles Campbell, are deserving of credit for full solutions and well executed diagrams. All solutions received have been examined with care, and full credit awarded to those whose principles were correct regardless of errors in the results. We regret that our limited space will not permit us to give solutions in full. From the large number of Problems received, for insertion, we have endeavoured to make as equitable a selection as possible; but correspondents must consider our limited space, and not feel disappointed if their productions do not appear so soon as they would wish. Problems for insertion must be accompanied with their solutions. All communications to this Department must be in the hands of the publishers, Messrs. Chewett & Co., before July 1st, 1870.

NOTE.—Problem 22 in last issue was wrongly printed. The expression “as 5 is to 5 8-19ths” should have read “as 5 8-19ths is to 5.” Problem 23 was too ambiguous for a definite solution. Nearly all our correspondents pointed out the error in Problem 22, which speaks well for the clearness of their reasoning.

I hereby therefore pray, that a Patent under the "Patent Act of 1869" be granted to me extending the privileges of my former Patent over the whole of the Dominion, for the remainder of the term mentioned in my former Patent, namely, to the [insert day, month and year at which the former Patent was to expire.]

In testimony thereof I have signed in the presence of the two undersigned witnesses at the place and date hereunder mentioned.

16. A patent of Invention will be made after the following form:

CANADA PATENT OF INVENTION.

WHEREAS, in accordance with an Act of the Parliament of Canada, called "The Patent Act of 1869," [names of patentee] of the [name of locality] in the Province of [name of Province] being a resident of Canada, having elected his domicile for the purpose of the present patent [designation in full of domicile elected] having otherwise complied with the requirements of the said Act to obtain a Patent, and having furnished specification and drawings, one duplicate of each being hereunto annexed as part essential of this present Patent, the said specifications and drawings being the description and illustration of the said invention called [name of the invention or improvement] of which the said [names] declares himself to be the inventor.

The present Patent is granted to him, his heirs, assigns, or other legal representatives for the period of five years from the date thereof, subject to extension of further periods in accordance with the "Patent Act of 1869," to confer on the said Patentee all the privileges intended to be conferred by the said Act, or by the Patentee complying with the further obligations required by the said Act.

Provided always, that the validity of this present Patent rests on the truthfulness of the allegations, description and specification of the said Patentee.

The present Patent, however, shall cease and determine, and be null and void at the end of three years from the date thereof, unless the Patentee shall, within that period, have commenced, and after such commencement, carry on in Canada the construction or manufacture of the said invention, and shall cease and determine and be null and void at the end of eighteen months from the granting thereof, if the Patentee or his legal representatives import or cause to be imported into Canada the invention for which this Patent is granted.

In testimony whereof the present Patent has been signed according to the said Act, sealed with the seal of the Patent Office, and countersigned in the Department of Agriculture on the [date, month and year written in full, and prominently.

Countersigned Deputy Commissioner.

Signature of the Commissioner of Patents or of a Member of the Privy Council.

The specification will be attached to the Patent to form an essential part thereof, and the first folio of the said specification will be sealed at one corner with the seal of the Patent Office.

The present form, otherwise remaining the same, will be altered in some particulars to meet the circumstances of the case, when the Patent is given to joint inventors, to an assignee or assignees, to legal representatives, or when it is a Patent extending a former Patent to the whole of the Dominion, or as a re-issue, or in any other special case.

17. The models required by law must be neat and substantial working models, the dimensions of which are not to exceed, in any case, eighteen inches in their longest side, unless otherwise allowed by special permission previously obtained; such models must be so constructed as to show exactly every part of the invention and its mode of working. In cases where samples of ingredients and samples of the composition made of such ingredients (neither of which being dangerous or explosive substances) are required by law they must be contained in glass bottles properly arranged. Both models and bottles must bear the name of the inventor, the title of the invention, and the date of the application; and they must be furnished to the Patent Office free of every charge and delivered in good order.

18. All fees required by law shall be transmitted with the application to which they appertain in values not subject to any discount, and be better made, whenever practicable in Post Office money orders, inclosed in registered letters.

19. All applications must be proceeded with and perfected within two years after the lodging of the petition in default of which it will be regarded as abandoned, and all previous proceedings and payment of fees will be held at the expiration of that period as of no avail.

20. Two or more separate inventions cannot be claimed in one application, nor patented in one patent, unless they are so dependent of and connected with each other as to be necessarily taken together to obtain the end sought for by the inventor; and in this latter case the Commissioner of Patents is the judge as to whether or not the pretensions of the applicant are founded in fact and reason.

21. The filing of a protest against the issuing of a patent shall not be taken in itself as a sufficient reason to withhold the granting of such patent to an applicant.

22. In cases of doubt, and in accordance with the letter and meaning of the law, Patents may be issued

for an invention already patented, a trial before a judicial tribunal being in such cases the only means of discovering who is the real or first inventor.

23. A Caveat must be composed of a specification (and drawings), and as long as it remain uninterfered with, and that the filer is not called upon to lodge his application in due form on account of an interfering application, the said proprietor thereof can lodge with it additional papers, provided these papers are relevant exclusively to the perfecting of the same invention in progress of completion.

24. All cases connected with the intricate and multifarious proceedings issuing from the working of a law of Patents of Invention, which are not specially defined and provided for in these rules, shall be decided in accordance with the merits of each case by authority of the Commissioner of Patents, and the decision shall be communicated to the interested parties, through the Departmental correspondent of the Patent Office.

NOTICE.

The correspondence with the Department is carried, through the Canadian Mail, free of postage.

The forwarding of any paper should always be accompanied by a letter, and a separate letter should be written in relation to each distinct subject.

It is particularly recommended that reference should be made to the law before writing on any subject to the Department; in order to avoid unnecessary explanations and useless loss of time and labour; and it is also recommended, and in every case to have the papers and drawings prepared by a competent person, for the interest both of the applicant and of the public service.

A sufficient margin should be left on every paper, and specially on specifications and assignments for the insertion of references, or certificates, and for the affixing of the seal thereto.

Although it is optional for the applicant to annex drawings to the specification of a Caveat or not, still it is important, in the interest of the party, always to attach drawings to the said specification.

It must be remembered that the better papers are executed, the sooner the work is dispatched at the office, and the surer the regularity of the proceedings is guaranteed.

It must be remembered, when drawing the Petition for a Patent of Invention that, if a change in the residence mentioned has taken place during the year next to the date of the Petition, the change or changes should be mentioned in accordance with the 12th Section of the Patent Act, of 1869.

The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart.

COURTS OF GENERAL SESSIONS.—The County Judge in each county holds a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said court is held three times, commencing on the second Tuesday in March, July and December, for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction.

SPEEDY TRIALS OUT OF SESSION.—By the Act of the Parliament of Canada, 32 Vic., cap. 67, any person committed to jail for trial, on charge of being guilty of any offence for which he may be tried at a Court of General Sessions, may, with his own consent, and subject to the provisions of the said Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted be sentenced by the said Judge, and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

In the Province of Quebec, this enactment applies to traders only. In the Province of Ontario, to all persons whether traders or non-traders. In these courts, the county court Judge in each county presides—the only appointments made in pursuance of this statute being those of "official assignees," who are to be nominated "by the Board of Trade at any place, or the council thereof, within the county or district in which such Board of Trade exists, or in any county or district adjacent thereto in which there is no Board of Trade."

DIVISION COURTS.—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each judicial district is divided into court divisions, and courts are held once in two months in each division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

MEDICAL INSTITUTIONS AND SCHOOLS.

MEDICAL COUNCIL.—The act under which the Upper Canada Medical Board was constituted was repealed, in 1865, by an Act of the late Province of Canada, which has since been repealed by an Act of the Legislature of the Province of Ontario—taking effect from the 23rd day of January, 1869. This new Act, called "The Ontario Medical Act," incorporates the whole profession of Ontario under the name of "The College of Physicians and Surgeons of Ontario," and grants certain powers to the College which are exercised by an executive body called "The Council of the College, &c., &c." The profession, through its Council, has the power of establishing a curriculum of studies, which shall be observed by all medical teaching bodies in Ontario, and by all students of medicine.

The act also deprives all universities, colleges or schools of medicine of the privilege hitherto enjoyed, of granting a diploma entitling its holder to legal recognition in this Province, and places the sole licensing power in the hands of a Board of Examiners to be annually appointed by the Council. The degree or diploma of an university or college of any part of the world henceforth only possesses an honorary value in Ontario, unless granted before the 23rd day of July, 1869. Only British or Colonial diplomas confer any rights if granted before that date.

Every person, in order to become legally qualified to practice, is required to have his name registered in the Register kept by the Registrar of the College. At the beginning of each year the Registrar publishes in a book a list of all persons registered, with their names in full, residence, address and the degrees or diplomas possessed by each. This book is called the *Ontario Medical Register*, and is accepted in all Courts of Law and before all Justices of the Peace and others as *prima facie* evidence, that any

person whose name is found therein, is registered according to law. The absence of the name of any person from such Register is also *prima facie* evidence that such person is not registered according to law; and no person, whose name does not appear in that Register, is entitled to charge for any advice, or for any medicine which he shall have both prescribed and supplied. No one can collect fees in court for advice in either medicine, surgery, or midwifery, unless he be registered according to law, and his name be in the "list" of the current year. Nor can any unregistered person be appointed as medical officer, physician or surgeon in any branch of the public service, militia or otherwise, or to any hospital or other charitable institution not supported wholly by voluntary contributions; neither can any unregistered person give evidence (of a professional nature) before any coroner's or other court; nor is a certificate of lunacy valid from an unregistered person, nor any other certificate which the law requires from a physician or surgeon. This Register is sold to the public, and may be obtained by applying to the Registrar of the College.

The Council of the College is composed of thirty representatives of various medical interests. Two-thirds of this number are members of the general profession, or what is commonly called the "regular profession." Twelve being the representatives of twelve Medical Electoral Divisions into which Ontario is divided, and eight representing the Universities, Colleges and Schools of Medicine now existing in Ontario. The remaining third are members of two sects of medical practitioners, five representing the section known as "Homoeopaths," and five representing the section known as "Eclectics." Councillors are elected for a period of three years. No one who votes for a repre-

sentative of a territorial division has a right to vote for either a Homoeopathic or Eclectic representative, and vice versa. The Council is composed as follows:—

LETTER RATES.

Letters posted in Canada addressed to any place within
the Dominion pass, if prepaid, for 3 cents per $\frac{1}{2}$ oz., but if
posted unpaid such letters are charged 5 cents per $\frac{1}{2}$ oz.
On Letters to Prince Edward Island, the rate is 3 cents
per $\frac{1}{2}$ oz. if prepaid, 5 cents if unpaid.

The rate on Letters to the United Kingdom is, by Canadian
Packet, sailing from Quebec, Portland, or Halifax,

Not exceeding $\frac{1}{2}$ oz. 12 $\frac{1}{2}$ cents
Exceeding " and not exceeding 1 oz. 25 "

and so on, increasing one rate of postage for each addi-
tional half ounce.

And by Cunard Packet, 15 cents per $\frac{1}{2}$ oz., &c.
Letters for the United Kingdom must be prepaid, or they
will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond Sea,
and Foreign Countries, via England, must be prepaid.

The rate on letters for the U. States, is 6 cents per $\frac{1}{2}$ oz.
" to Cuba 10 cents per $\frac{1}{2}$ oz.
United States letters 6 cents if prepaid, 10 cents if unpaid.

The rate of postage on letters to British Columbia and
Vancouver's Island is 10 cents per $\frac{1}{2}$ oz., which must be
prepaid. An additional charge is made on those letters
on delivery, for sea postage on the Pacific side. Newspa-
pers 2 cents each. Books 1 cent per 4 oz.

Red River letters 6 cents per $\frac{1}{2}$ oz.; newspapers 2 cents
each, or commuted rate if from Red River to regular sub-
scribers in Canada. No correspondence can be forwarded
to Red River unless prepaid by postage stamp.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave
Liverpool in each week, viz.: a Canadian Packet on every
Thursday, via Derry on Friday, sailing to Quebec in sum-
mer and Portland in winter, by which the Postage rate is
6d. stg. per $\frac{1}{2}$ oz.; and a Cunard Packet every Satur-
day, via Cork on Sunday, bringing Mails for Canada to
New York, by which the Postage rate to Canada is 7d. stg.
per $\frac{1}{2}$ oz.

A Canadian Packet leaves Liverpool every alternate
Saturday for Halifax, calling at Queenstown en route.
Postage 6d. stg. per $\frac{1}{2}$ oz., same as by Canadian Packet to
Quebec or Portland.

The British Post Office forwards letters to Canada by the
first packet sailing after the letter is posted, unless the
letters bear a special direction—"By Canadian Packet" or
"By British Packet"—and in that case they are kept over for
the Packet designated. "By Canadian Mail" is not a
distinctive superscription; for any Mail for Canada is a
"Canadian Mail," by whatever Packet forwarded.

WEST INDIES VIA NEW YORK.

West Indies (British) letters 10 cents per $\frac{1}{2}$ oz., news-
papers 2 cents each. (Foreign) letters 22 cents per $\frac{1}{2}$ oz.,

E

newspapers 3 cents each. Books (British only) 2 cents
per 4 oz.

Letters, &c., prepaid for transmission, via New York,
are forwarded direct on New York with every mail made
up for that Post Office; whence West Indian mails are
despatched as follows:

For Havana and the West Indies, via Havana, every
Thursday afternoon.

For St. Thomas, the West Indies, and Brazil, on the
23rd of every month.

Letters for the West Indies, British and Foreign, are
also sent via Halifax and Bermuda; postage 12 cents per
 $\frac{1}{2}$ oz., newspapers 2 cents each.

No unpaid correspondence can be forwarded by this
route.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be
careful to require them to be registered, and to obtain from
the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage,
is as follows, viz.:

On Letters to any other place in Canada, or Bri-
tish North America 2 cents.

On Letters for the United States 6 "

On Letters for the United Kingdom 8 "

On Letters for British Colonies or Possessions,
sent via England 25 "

On Letters for France and other Foreign Countries, via
France an amount equal to the postage rate.

On parcels, patterns, or samples, in Canada, 5 cents

On book packets and newspapers to United Kingdom,
8 cents.

Both the postage charge and registration fee must in all
cases be prepaid.

Registration is not an absolute guarantee against the
misarrangement or loss of a Letter; but a Registered Letter
can be traced when an Unregistered Letter cannot, and the
posting and delivery or non-delivery can be proven. A
Registered Letter is thus secured against many of the
casualties which, from incorrect address, forgetfulness of
the receiver, or other error, may affect an Unregistered
Letter.

MISCELLANEOUS CHARGES.

The charge on Parcels by the Parcel Post, which is limited to places within the Dominion, is 12½ cents per 5 oz. (with 5 cts. additional if Registered.)

One cent per oz. payable in advance by Postage stamp. Is the rate on Printed Circulars (Printed Circulars, if sent in envelopes, whether sealed or unsealed, are liable to letter postage), Prices Current, Hand Bills and other Printed Matter of a like character, and on Books, bound or unbound, when posted at a Canadian Post Office addressed to any place in the Dominion of Canada, British North America generally, or the United States.

The postage upon Prices Current addressed to the United Kingdom is two cents each, which must be prepaid by postage stamps, or they will be sent to the Dead Letter Office to be returned to the senders.

NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by Post from the office of publication, addressed to any place in Canada, at the following rates, if paid quarterly in advance by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office:

For a paper published 6 times a week, 30 cents per quarter.
" " " 3 " 15 " "
" " " 2 " 10 " "
" " " 1 " 5 " "

When the above rates are not paid in advance by either publisher or subscriber, such Papers are charged one cent each on delivery.

TRANSIENT NEWSPAPERS.

Transient Newspapers—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid 2 cents each, by postage stamp, or they cannot be forwarded—except only *British Newspapers* distributed to regular subscribers by Canadian Booksellers or News Agents—such papers pass free as they would do if received in the Canadian Packet Mails.

NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free.

Newspapers from England by the Cunard Packet Mails are charged 2 cents each on delivery. (This is the American transit charge.)

United States Newspapers, brought by mail into Canada, to regular subscribers, are charged one cent each on delivery, transient papers 2 cents each.

PERIODICAL PUBLICATIONS.

The rate on all Periodicals, other than Newspapers, passing by mail in Canada, save such as may be addressed to or received from the United Kingdom, is one cent per 4 oz. weight of package containing periodical matter, whether the package contain one or more numbers.

Any fraction of 4 oz. to be charged as a full rate.

No periodicals whatever, except exchanges, (i. e. periodicals passing between publishers in Canada, and between publishers in Canada and publishers in the United States, Prince Edward Island, or Newfoundland) are entitled to exemption from postage.

Transient Periodical matter posted in Canada must in all cases be prepaid by Postage Stamp.

The above rate will be payable on delivery on all Periodical matter received from the United States, except that Canadian Editors may receive Exchange Periodicals from the United States free of Canadian Postage.

Periodicals, printed and published in Canada, may be posted addressed to any place in the United Kingdom by Canadian Packet, on prepayment by Postage Stamp of two cents each number.

No package of periodicals can be sent through the Post, if it exceed 4 lb. in weight.

POSTAGE RATES ON MISCELLANEOUS MATTER.

Patterns or samples of merchandise and goods for sale, not exceeding 24 oz. in weight, may be posted in Canada to be forwarded to any place within the Dominion, on prepayment by postage stamp of a rate of 1 cent. per ounce, under the following regulations:

Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples however of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material,

fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The Packet may bear on the outside the address of the sender, in addition to the address of the person for whom it may be intended; also a trade mark and numbers, and the price of the article enclosed; inside, there must be no enclosure but the samples or patterns themselves; the particulars however of the trade marks, numbers and price, may be marked on the articles themselves, instead of on the outside of the Packet, at the option of the sender.

Any sample or pattern Packet containing a letter, or otherwise violating the conditions of the preceding rules, will be rated and treated as a letter.

The rate of one cent. per ounce is to be pre-paid by postage stamp, and, if such rate be not fully pre-paid by the stamps affixed, the Packet is to be rated with the deficient postage and a fine of five cents in addition.

Packets of samples and patterns may be registered on pre-payment by postage stamp of a registration fee of 5 cents in addition to the postage rate, and provided such Packets be duly handed in to the post office for registration.

No Packet of samples or patterns must exceed 24 oz.

These regulations apply only to the transmission of Packets of samples and patterns within the Dominion of Canada, and will not in any manner interfere with the regulations covering the exchange of samples and patterns with the United Kingdom, or with the foreign countries to which the same advantage extends, namely, France, Belgium, Italy, German States, Netherlands, Portugal, Switzerland, and Denmark.

No provision as yet exists for the exchange of such matter with the other British Colonies, with the U. S. or with other foreign countries than those above named.

Book and newspaper manuscript, and printers' proof-sheets (whether corrected or not), maps, prints, drawings, engravings, photographs when not on glass or in cases containing glass, and sheet music (whether printed or written), may pass in covers open at the ends or sides, and provided that no letter, or other communication intended to serve the purpose of a letter, be enclosed therein, on pre-payment, when posted in Canada, by postage stamp of the ordinary printed matter rate of one cent per ounce; or upon payment of that rate on delivery of such matter when received in the mails from the United States.

POSTAGE OF BOOKS, PATTERNS AND SAMPLES.

Patterns of merchandise, and samples, may be forwarded between Canada and the United Kingdom, France, Italy, German States, Netherlands, Portugal, Switzerland, and Denmark, by the Canadian Packet mails, at book post rates, and subject to the following conditions:

There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

Any infringement of the above regulations will render the packet liable to be treated and charged as a letter.

Samples of seeds, drugs, and similar articles intended for delivery within the United Kingdom, are now allowed to be sent in bags entirely closed, provided such bags be transparent, so that the officers of the Post Office may be able to satisfy themselves of the contents.

The rule which prohibited the transmission through the Post, as patterns, of articles of cutlery, &c., has been rescinded; and scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal jinking, pieces of metal or ore, and such like articles, are now allowed to be forwarded by the Post as samples, provided they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the persons of the officers of the Post Office. Such articles, however, must be so packed that they may be easily examined; and it is made a rule that any packet containing such articles, which may be found to be insufficiently guarded, shall not be forwarded through the Post.

None of the articles named in the next preceding paragraph may be sent as patterns or samples to any place abroad, except Germany, Belgium, and the British Colonies, and not to these places when addressed to France.

PATTERNS, LIMIT OF SIZE AND WEIGHT.

The limits of weight and size are as follows:—

Brunswick, draw also upon the Money Order Offices in
Nova Scotia, Prince Edward Island and Newfoundland.

payable in sterling money, and for sums up to £10 ster-

The Money Order Post Offices are furnished with Lists

ward Island, and Newfoundland; and the Postmasters are
instructed to afford every information in their power, in
respect of the places upon which they draw, together with
any other information relating to such issues as the in-
tending Remitters may desire.

POST OFFICE SAVINGS BANKS.

The Post Office Savings Banks, established by statute
in the last session of Parliament, commenced operations
in Ontario and Quebec on the 1st April, 1868.

The direct security of the Dominion is given by the
statute for all deposits made.

At each Savings Bank Post Office the regulations
may be read by the public, giving full information with
respect to the mode of depositing and withdrawing money,
and these regulations are printed on the cover of the Pass
Book supplied to each depositor.

Any person may have a deposit account, and deposits
are received daily, during the ordinary hours of Post
Office business, of any number of dollars, from \$1 up to
\$300, the total amount which can be received from a
depositor in any one year, except in cases to be specially
authorized by the Postmaster General.

The Postmasters of Savings Banks will act as agents
for the receipt of the money deposited for transmission to
the Postmaster General, and for the payment by the
Postmaster General of money withdrawn by depositors.

Each depositor is supplied with a pass book, and the
sums paid in, or withdrawn, are entered therein by the
Postmaster receiving or paying the same. In addition, a

direct receipt for each amount paid in, is sent to the depo-
sitor from the Postmaster General, and the Postmaster
General will issue a cheque, payable at any Post Office
Savings Bank desired, for any sum withdrawn.

Every depositor's account is thus kept with the Post-
master General, and a depositor may pay into his or her
account with the Post Office Savings Bank, at any of the
Savings Bank Post Offices which at the time may best suit
his convenience, and may exercise the same choice in
drawing out money, subject only to the obligation of pro-
ducing the pass book, in proof of identity—whenever pay-
ing in or drawing out money.

Interest at the rate of 4 per cent. per annum is allowed
on deposits lying in the ordinary deposit accounts, but
when a depositor has \$100 deposited, he or she may request
the Postmaster General to transfer this sum to a special
account, and will then receive a certificate of such special

COMMON SCHOOLS.—Each Township is divided into School
Sections of a suitable extent for one School; and in each of
these Sections three Trustees are elected to manage its School
affairs. In cities, towns, and villages, the schools are man-
aged by a Board of School Trustees, elected for the Muni-
cipality. There were 4,459 Common Schools, with 419,899
pupils, in Ontario, in 1868.

PUBLIC SCHOOL LIBRARIES.—Each School and Municipal
Corporation, desirous of establishing Free Public Libraries,
is aided by the Educational Department granting 100 per-
cent. on local appropriations, and supplying books from the
Depository in connexion with the Department. Up to the
end of Dec. 1868, about 1,070 Libraries had been thus
established, with 227,610 volumes.

EDUCATIONAL MUSEUM.—Connected with the Educational
Department is a Museum, containing specimens of School
apparatus and furniture; a valuable collection of Italian,
Dutch and Flemish Oil Paintings and Statuary casts and
busts. The Museum is freely open to the public, from
9 a.m. to 5 p.m.

THE TOTAL NUMBER OF EDUCATIONAL INSTITUTIONS of all
kinds reported by the Educational Department as in op-
eration in the Province of Ontario during 1868, was 4,882,
attended by 434,933 pupils, and expending \$2,239,639 in
their support.

Normal School. The Sessions of the Normal School com-
mence on the 8th of January and 8th of August, and close
on the 16th of June and 16th of December in each year.

GRAMMAR SCHOOLS.—Each of these Schools (which form
the intermediate link between the Common Schools and
the Universities) is managed by a Board of Trustees ap-
pointed jointly by the County and Town Councils. In
cities, the Trustees are all appointed by the City Council,
except where there is only one School in the county. The
head master must be a graduate of a British or Colonial
University, unless certificated and appointed before 18th
September, 1866. Besides fees, local rates or contributions
to the extent of half the government grant must be raised
for the master's salary. The grant is payable to those
schools only which attain a certain standard, and is based
on the average attendance of pupils in the prescribed
studies. An extra grant is provided for masters taking
certain Meteorological observations and giving scientific
knowledge preparatory to military instruction. Pupils
attending these schools are prepared for matriculation in
the Universities. There were 101 Grammar Schools, with
5,649 pupils, in Ontario, in 1868. Rev. J. G. D. Mackenzie,
M.A., Inspector of Grammar Schools.

REMARKS.—To find Discount for less than one per cent., as $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{8}$, &c., take the difference between the current rate and the next highest figure. Thus: $17\frac{1}{4}$ per cent. Premium is 14.71, 1. The difference between 17 and 18 per cent. Premium is 0.72, 4, which divide by $\frac{1}{4}$ gives 0.18, 1; which add to 17, namely 14.53, 0, gives 14.71, 1.

THE JOSEPH HALL MACHINE WORKS, OSHAWA, ONTARIO.

JOSEPH HALL MANUFACTURING COMPANY, PROPRIETORS.

The business heretofore carried on by the late JOSEPH HALL, and more recently by his Executors, has been purchased, including SHOPS, MACHINERY, PATTERNS, &c., by THE JOSEPH HALL MANUFACTURING COMPANY, who will continue the same, in all its branches, with increased energy and vigour. Our facilities have been largely increased by the addition of NEW MACHINERY and a more thorough organization. Through our connection with the GLEN & HALL Manufacturing Co., of Rochester, we shall receive all

VALUABLE IMPROVEMENTS

INTRODUCED IN THE UNITED STATES.

Our organization will be permanent, and it is our determination that all our Manufactures shall be of the most

IMPROVED PATTERNS,

and made in the most thorough and workman-like manner. We shall aim to anticipate the growing wants of our new country, and be ready to supply any

MACHINERY THAT WILL AID IN DEVELOPING ITS GREAT RESOURCES.

All that capital, skillful workmen, improved machinery, perfect organization and division of labor can do with the best material shall be done to put into the hands of our patrons

THE BEST MACHINERY MADE IN CANADA,

AT THE LOWEST POSSIBLE PRICES.

WE DESIRE TO CALL ESPECIAL ATTENTION TO OUR

LEFFEL'S DOUBLE TURBINE WATER WHEELS.

We are the only manufacturers who can furnish the genuine "Leffel Wheel" in Canada, as will be seen by the following certificate:

SPRINGFIELD, OHIO, Dec. 25, 1868.

We take pleasure in informing the public of Canada, that we have sold and furnished Mr. F. W. GLEN, of Oshawa, Ontario, Patterns, Formers, Drawings, Gauges, and all other necessary information, to build our celebrated Double Turbine Water Wheel, invented by JAMES LEFFEL, and known as the "Leffel Wheel." We have also obligated ourselves to furnish the same facilities for manufacturing to no other parties in Canada. Without the information we have given Mr. GLEN, no one can successfully build our Wheels, and we advise parties in Canada to purchase our Wheels of no other manufacturer. Mr. GLEN's facilities are unsurpassed, and we feel sure that he will build a Wheel that will give perfect satisfaction. We therefore commend him to the public of Canada with entire confidence, feeling sure he will manufacture a Wheel in all respects equal to our own.

(Signed) JAMES LEFFEL & CO.

WARRANTY.—We are prepared to furnish Water Wheels, Gears, Shafts, Pulleys, and all Machinery necessary to attach the Wheels to the machinery they are intended to drive; and if, after two months trial, they are not satisfactory, we will take all back, pay freight both ways, and refund any payments made to us thereon. Where parties are not satisfied with the Wheel, and cannot make a change at the time without loss to business, they may run the wheel and machinery a reasonable time without charge, not exceeding one year, in order that they may make a change without injury to their business.

We call especial attention to our superior Gearing of all kinds for attaching our wheels, made light and adapted to the high speed at which the wheels run. We caution purchasers against using heavy shafting and gearing.

We also manufacture all kinds of Saw and Flour Mill Machinery, including Steam Engines and Boilers, English and American Ganges, Hand-setting and Self-setting Circular Saw-Rigs, Upright and Oscillating Muley Saw-Rigs, Gearing, Shafting Pulleys and Hangers, &c., &c. Also Shingle Machines and Jointers, Leather-Splitting Machines, Knife-Grinders, Woollen Machinery, Washington Hand Printing Presses, Gordon's Power Press, Taylor's Cylinder Press, and Blake's Patent Steam Pump.

Catalogues containing full information furnished free to all applicants. Address—

F. W. GLEN, President,

NEWSPAPER IMPORTERS,

18 TORONTO STREET,

TORONTO,

Would call the attention of the Trade to their facilities for supplying everything in their line, with the utmost promptitude and regularity. The experience of several years in supplying the Trade with ENGLISH PERIODICALS, has enabled them to perfect their arrangements, both in England and this country, and they believe that no House in the Dominion can do this business better. In connection with this, they would repeat here a Circular issued to the Trade, in August last:—

"We have the pleasure of informing you that in consequence of the large increase in our Magazine and Periodical Trade, we have found it necessary to take premises for the more efficient carrying on of that department, in connection with our general Wholesale Trade, and we have accordingly secured the Store, No. 18 TORONTO STREET, a few doors North of the Post Office, where that portion of our business will in future be attended to. In addition to English Publications, we now supply American Magazines and Papers, punctually, and at lowest rates. We shall keep a much larger Stock of Standard Books, and especially of Educational Works, Classical and English. We invite the orders of the Trade. We shall supply at lowest prices and usual time.

"We also beg to say that the Style of our Firm will from this date be changed from W. C. CHEWETT & CO. to

COPP, CLARK & CO.

"This change is one in name only, as many of our friends will be aware. The same parties who have hithert had the pleasure of attending to your orders, will continue to do so in future, and hope that the transactions of the past will be largely exceeded in the future.

We remain,

Your obedient Servants,
